**Graduate School Application, Technology & Policy Program
Supplemental Question**

Name:

**In your Statement, you have described for the Admissions Committee your
motivations for, and the goals underlying, your application to the
Technology and Policy Program.**

**In this Supplement, we would like you to express your reasons for studying
technology and policy at MIT differently, <u>addressing a person who is not a
scientist, engineer, or policy expert.</u>**

**This should NOT be a simple recapitulation or rephrasing of your Statement.
Rather, how would you explain your goals to a broader audience whose
members are (or should be!) interested in the goals of your work? Please
limit your response to 750 words or less.**

Please compose your response and then:
    (1) **email** it to tpp@mit.edu; or
    (2) **mail** it to   Technology & Policy Program
                  MIT Room E17-373
                  77 Massachusetts Ave.
                  Cambridge, MA 02139
                  USA
